## **°KeepCOLD®Stat emergency MRI helium supply**

If your MRI system is in danger of a quench, you're losing a lot more than helium. That's why the Air Products KeepCOLD®Stat MRI fill service never closes. Ever. You see, we're the world's largest supplier of helium.

In fact, we already service over half of all MRI units in the US and almost as

many in Europe. Our supply is reliable and our transfer system is safe, efficient, fast and cost-effective. And we'll come when it's convenient for you, so you won't miss a scan. Just call us anytime toll-free at 800-848-3205.
