

Additives so useful and economical
you'll want them to be yours forever.

Mark Sutovich, Grace Zhang and Mike Peck are part of our global team of surface science experts that has delivered highly efficient additive solutions for over 40 years.

**Introducing ZetaSpense™
pigment dispersing additives.**

Now you can get all the performance you need with a single environmentally friendly, APE-free product. ZetaSpense additives combine increased color development with lower dispersant demand, which means better cost-in-use. You also get higher pigment loading and lower viscosity grinds. And you get it all, whether

your inks or coatings use organic, inorganic or carbon black pigments.

To receive a free sample and a reusable USB drive containing product and usage info, visit www.airproducts.com/zeta2 or call 800-345-3148. For all-in-one performance, choose ZetaSpense. For good.
