John W. Marsland

Vice President and General Manager
Global Liquid Bulk, Generated Gases,
and Helium

John W. Marsland was appointed vice president and general manager, Global Liquid Bulk, Generated Gases, and Helium, in April 2009. In this position, he is responsible for the worldwide leadership and management of the businesses that supply gases in liquid bulk form, generated gases and helium to customers.

Mr. Marsland joined Air Products in 2002 as director–Business Development, and in 2003 was named vice president, Corporate Development Office. He was appointed vice president and general manager, Healthcare, in 2005, with responsibility for the commercial and operational activities of Air Products’ healthcare business globally. In 2006 Mr. Marsland assumed overall responsibility for the company’s global healthcare business, including developing and implementing strategy, technology development and medical policy. He was named vice president, Business Services, in 2008, where he led the company’s efforts to streamline business support services globally.

Prior to joining Air Products, Mr. Marsland was employed by The Stanley Works where he had worked since 1999 as director, Financial Planning and Analysis, and subsequently, director, Finance–Mergers & Acquisitions. Before joining The Stanley Works, Mr. Marsland worked for GE, where he graduated their Financial Management Program, was a member of their Corporate Audit Staff for five years, and held leadership positions within their Global Treasury, Asian Finance and Global Supply Chain organizations.

Mr. Marsland was born in Reading, Pa. He graduated with High Distinction from Babson College in 1988 with a B.S. degree in finance and investments. In the community, he serves on the board of directors of KidsPeace.
