

Brady Jones. A perfect example of why we outshine other MRI helium providers.

Brady Jones is typical of our cryogen fill team's dedication and over 500 years of combined experience. He responds to emergency calls around the clock. He's even chased down mobile units and serviced them at highway rest stops. When you're alone in the dead of night, he's one face you want to see.

When St. Luke's new magnet needed an emergency fill on July 4th, they didn't panic. They called Brady Jones. That kind of implicit trust has been earned by our °KeepCOLD® Services people all over the world. We have the only team of full-time, MRI cryogen professionals, anywhere. Each has been trained, tested, certified and re-certified. Each conducts a 60-point examination with every fill. Each under-

stands your equipment can't go down, that your patients can't wait. They are the reason we safely maintain 5,500 MRIs with an unparalleled 99.994% uptime record. As the world's largest supplier of helium, what we really offer is peace of mind. Call us at 1-800-654-4567, ext. 13.
