Patricia A. Mattimore

Vice President and General Manager
Performance Materials Division

Patricia (Pam) A. Mattimore was appointed vice president and general manager of the Performance Materials Division in March 2009. She has oversight responsibility for the global operations of Air Products' Performance Materials Division, which combines the company's technology and market leadership strengths in specialty surfactants, polyurethane catalysts and epoxy curing agents for the coatings, inks, adhesives, civil engineering, personal care, institutional and industrial cleaning, mining, oil field, polyurethane and other industries.

Ms. Mattimore joined Air Products in 1982 as a participant in the company's Career Development Program. She subsequently held positions in applied research and development, standard plants, and sales and major accounts management.

Ms. Mattimore served as area manager for Air Products' Electronics Division from 1993-1997. In 2000 she was named president, Air Products Electronic Chemicals, in which she was responsible for the company's global electronic chemicals business, including continued growth of Air Products' Schumacher business unit. In 2005 Ms Mattimore was named vice president, Energy and Materials, prior to assuming her current position.

Ms. Mattimore was born in New Brunswick, N.J. She received a B.A. degree in chemical engineering from Lafayette College in 1982.
