

Team in mirror is even closer than it appears.

*Julie Smale, Neil O'Brien and our entire distributor sales staff work hard to understand and solve your problems. They'll listen to your needs and pull together a solution.*

The whole Air Products team is right behind you every step of the way with every order. Schedulers and customer service reps like Tom Tyler and Stacey Clifton, and drivers like Carlos Santiago, work hard to uphold our unequalled 99.9% on-time delivery record. Bob Martrich obsesses over the safe practices that have made us the industry safety leader four years in a row. And reliability doesn't stop with our

people. Our gas supply, a key factor in getting you what you need when you need it, is just as reliable as ever. Our commitment to the independent distributor is reflected in everything we do. To learn more, call 800-654-4567 (code 75) or visit our Web site.
