

We poured
everything we
know into
low-VOC
Surfynol® 2502
surfactant.

Surfynol 2502 is an ethoxylated/propoxylated acetylenic-based surfactant. Based on Gemini technology, Surfynol 2502 delivers a unique balance of excellent wetting, foam control, and emulsification, all in a solvent-free, ready-to-use, 100% active liquid. Our team has produced a surfactant that improves your performance and does so in many more applications. Call 1-800-345-3147 to get a sample and see for yourself.
