

Ever see foam
running scared?

*Introducing
EnviroGem® AD01
surfactant. A superior
defoaming wetting agent.*

Our chemists have developed their toughest surfactant yet. With its immediate knock-down defoaming, exceptional foam control, and improved wetting, this Gemini-based surfactant gives you the power to solve multiple problems without the hassle or cost of using multiple additives. EnviroGem AD01 is also low VOC, non-APE, and solvent-free, so it's easy to work with. And since it's 100% active and non-silicone, it's ready when you are.

Call 800-345-3148 for a free sample and performance data. EnviroGem AD01 surfactant. Bye, bye foam. Hello defect-free wetting.
