

**EnviroGem® AE surfactants
prevent orange peel.**

It used to be that if your surfactant was environmentally friendly you could forget about good performance. And vice-versa. But now, you can have both. EnviroGem AE low-foam surfactants prevent orange peel by providing excellent flow and leveling in a 100% active, low viscosity, readily biodegradable form. For a sample and detailed data, visit us online or call 800-345-3148.
