

**Our specially designed additives
are where foam meets function.**

Whether you need to improve an existing product or create an entirely new one, our cost-effective, high-performance additives are just the thing.

With more than 40 years of experience, we've developed the world's leading additives, including Dabco® and Polycat® catalysts. And our deep understanding of market issues, regulations and end-use challenges allows our team to tailor a solution to your unique needs.

For a free sample and to learn more about how Air Products' customized performance materials can help you, visit our Web site.
