

Air Separation Plants Corporate Overview

Corporate Highlights

- Founded in 1940
- US\$10 billion annual revenues
- Operations in 40+ countries
- 20,000+ employees worldwide
- Serves a diversity of markets
- 200,000+ customers around the globe

Leading the way since 1940

In 1940 Leonard Pool proposed a way to cut industrial gas distribution costs by installing oxygen generators adjacent to the point of use. That simple but groundbreaking idea gave birth to Air Products. Today, Air Products (NYSE:APD) serves customers in technology, energy, healthcare and industrial markets worldwide with a unique portfolio of products, services and solutions, providing atmospheric gases, process and specialty gases, performance materials and chemical intermediates. We have built leading positions in key growth markets such as semiconductor materials, refinery hydrogen, home healthcare services, natural gas liquefaction, and advanced coatings and adhesives. We are recognized around the world for our innovative culture, operational excellence and commitment to safety and the environment.

What we can offer

Merchant Gases

- Oxygen
- Nitrogen
- Argon
- Helium
- Hydrogen
- Medical and specialty gases

Tonnage Gases, Equipment and Energy

- Hydrogen
- Synthesis gas
- Carbon monoxide
- Oxygen
- Nitrogen
- Liquefied natural gas (LNG) heat exchangers

- Air separation plants
- Hydrocarbon recovery and purification equipment
- Helium distribution equipment

Electronics and Performance Materials

- Specialty and tonnage gases
- Specialty and bulk chemicals
- Services and equipment for the electronics industry
- Performance chemical solutions for coatings, inks, adhesives, civil engineering, personal care, institutional and industrial cleaning, mining, oil fields and polyurethanes

Healthcare

- In-home respiratory therapies, home medical equipment and infusion services to patients in 15 countries

The Air Products Difference:

Innovative products and services

- We continually develop new techniques and technologies and test them in our own operations around the world
- We spend more than US\$150 million annually on research and development

Global access

- Corporate headquarters in Allentown, Pennsylvania, USA
- Asian headquarters in Singapore, with offices in Shanghai, Tokyo, and Hong Kong
- European headquarters in Hershham, UK
- Manufacturing facilities in the United States, Europe and Asia

Dedication to safe, compliant operations

- Best safety record in the chemical industry
- Listed in the Dow Jones Sustainability and FTSE4Good indices
